# Registration Instructions

The screenshot shows the 'Learning modules' section of a web interface. On the left, there is a sidebar with a green circular logo and the text 'Learning modules'. Below this, there is a blue arrow pointing right with the text 'Learning modules for this institute'. Underneath, there is a section titled 'Actions' with two options: 'Manage external accounts' and 'Directly to the course in ILIAS 5'. The main content area is titled 'Coupled learning modules' and contains a single entry: 'Speexx Core - English'. Below this entry is a 'Start' button. An orange arrow points to the 'Start' button. Below the 'Start' button, there is a text block: 'This course is associated with an ILIAS-course. This directly takes you to the course: Course in ILIAS 5'.

# Registration Instructions

Instead of opening the course in Ilias you can **start speexx here in neo:**

**Learning modules**

Learning modules for this institute

Actions

- Manage external accounts
- Directly to the course in ILIAS 5

**Coupled learning modules**

- Speexx Core - English

Start

This course is associated with an ILIAS-course. This directly takes you to the course:

Online Test

## How the test works

- This test may take up to 60 minutes, depending on your language level. Before you start, check that you have enough time!
- ➔ • You can only take this test once. You can also try each exercise only once.
- Are your headset or loudspeakers working properly?
- The clock at the top shows you the time for each exercise.

## Select your current level

Do you know your current language level? The better your chosen level matches your actual knowledge of the language, the quicker the test will be.

## To begin

- To see how the test exercises work, there is a short click-through tutorial before you start.
- Your level test will start after the tutorial.

# Tips and Tricks

# Speexx mobile

speexx

TIP

You can add speexx as a shortcut to the homescreen of your smartphone/tablet:

- open [Ilias HfWU](#) in your device's browser
- login and go to the Ilias dashboard. Click on „Stud.IP-Kurs Sprachlernangebot Englisch/Deutsch Speexx“
- click on „Speexx Core – English/Deutsch“ and start speexx
- add the link of your personal starting page as an icon/bookmark to your homescreen
- looks like an app and works similarly (you can **not** use the official speexx app)

**Attention: the homescreen link only works after an initial registration in neo**

speexx

# Tips for the Online Test

Use the **Tutorial** before the test. This gives you the opportunity to familiarize yourself with the type of tasks coming up in the test.

There is a time limit per task. The remaining time is shown on the top right corner and varies depending on the type and complexity of the task.

Once the time is up you can not change any answers!

The next task and the new time limit will not start automatically. To proceed you have to click "Next". This is a good opportunity for a short break 😊

Select your language combination

- English - Deutsch
- English - English
- English - Nederlands
- English - Français
- English - Italiano
- English - 日本語
- English - Polski
- English - Русский
- English - Español
- English - 한국어
- English - 简体中文
- English - Português
- English - ภาษาไทย
- English - Čeština

**Choose your language settings before starting the test.**

If you change the language during the test, you will be guided back to the starting page. It looks like the test starts over again, but your previous answers have been saved.

The tasks with a cloze text, as shown below, always give **exactly three possible answers.**

In the **audio tasks** click on the speaker symbol. You can then navigate and change the speed of the audio with a scroll bar. You can pause, rewind, fast forward and repeat until the time limit is reached.

# Tips for your daily practice

Use the **video-tour** to learn about all the practice features.

**Attention:** When you open a completed task again, your previous answers are not shown and you need to start over.

There is **no time limit** for practice tasks 😊

Improve your language skills by reviewing the correction of your answers.

If you click on **“Next”** instead of **“Correction”** after a task, you can **not see your correct and false answers**.

Use the **“Correction”**-button to see your correct and false answers. Speexx saves your results in percentage but not your mistakes.

Each practice unit includes approximately three to ten tasks. You can see the number of tasks on the cover of the practice unit (bottom left).
